This program is designed for public safety officers who deal with conflict or potential violence. This includes corporate security, federal, state and local law enforcement organizations, contract security companies, academic or healthcare law-enforcement and security, corrections, military police, probation and parole, bail enforcement, and executive protection.

Through a combination of Practical Exercises and Classroom instruction you will learn how to:

- Identify the stages of conflict to: recognize the threat, reduce the threat, and determine how and when to use force.
- Apply state-of-the-art tactical concepts such as: spraying techniques, disengagement, proper defensive positions, methods of movement, multiple opponent defense, contact and cover system, defense against moving attacks, ground defense, and drawing techniques.
- Help avoid liability suits through: Certified training, understanding the effects of OC spray, identifying factors which justify OC use, and proper OC incident documentation.

This is a non-product specific training program. Once trained and certified your agency decides which brand, suits your needs.
